A warm and wet March

Author: Press Office
13:08 (UTC+1) on Wed 3 Apr 2019

Rain may not be the first thing you think about when reflecting on March 2019, but it was in fact the 5th wettest March on record for the UK as a whole.

Interestingly, most of the 132.9mm of rain for the UK fell during the first half of the month, with high pressure bringing a much drier end to March 2019 for most.

Our latest blog post has more details.
